

Political decision-making

Political decision-making

LBBW is involved in the political decision-making process at the national level and political decision-making processes at the national and international level exclusively within the scope of its membership and through active participation in the associations. It does not exert any direct influence on political decision-making processes, does not employ any third parties to

carry out contacts for it in the political arena, and does not engage in lobbying within the meaning of the Lobby Register Act. The associations' contributions to the formation of political and public opinion are made within the framework of the association statutes, which are open to the public, and the terms of reference adopted by the associations' bodies or their executive committees.

Of particular relevance here are the memberships in the

1. Deutscher Sparkassen und Giroverband [German Savings Banks Association] (DSGV) as the umbrella organization of the Savings Banks Association Group
2. Verband Öffentlicher Banken [Association of German Public Banks] (VÖB), through which it indirectly participates at European level in the European Bank Federation (EBF)
3. Verband der Pfandbriefbanken [Association of German Pfandbrief Banks] (VdP)
4. Deutscher Derivate-Verband [German Derivatives Association] (DDV)

As a matter of principle, LBBW does not make donations to political parties, politicians, or governments.
